Social Studies Connection

Postwar United States: Civil Rights and Social Change (6.1.12.HistoryUP.13.a)

- Determine the extent to which suburban living and television supported conformity and stereotyping during this time period, while new music, art, and literature acted as catalysts for the counterculture movement.

Social Studies Connection

The Great Depression and World War II: New Deal (6.1.12.A.14.b)

- Analyze how the Supreme Court has interpreted the Constitution to define and expand individual rights and use evidence to document the long-term impact of these decisions on the protection of civil and human rights.

Example: When reading “Should You Worry About Being the Next Henrietta Lacks?” students will examine the Constitution and evaluate what rights Ms. Lacks had in 1951 versus what rights we have today.

Technology (NJSLs-Career Readiness, Life Literacies, and Key Skills & Computer Science and Design Thinking)

Technology Literacy (9.4.12.TL.3)

- Analyze the effectiveness of the process and quality of collaborative environments.

Example: Students will utilize technology to collaborate with their peers as they work on the Enchriridion Philosophical Analysis Project. At the end of the project, teachers can have students analyze the effectiveness of the process and quality of their collaborative environments.

21st Century Skills (NJSLs-Career Readiness, Life Literacies, and Key Skills)

Critical Thinking and Problem-Solving (9.4.12.CT.4)

- Participate in online strategy and planning sessions for course-based, school-based, or other project and determine the strategies that contribute to effective outcomes.

Example: Students may work in digital or in person literature circles when analyzing various ethical dilemmas. Students should determine strategies that contribute to effective outcomes.

Social Emotional Learning

Social Awareness

- Recognize and identify the thoughts, feelings and perspectives of others.
- Demonstrate awareness of the differences among individuals, groups and others' cultural backgrounds.
- Demonstrate an understanding of the need for mutual respect when viewpoints differ.
- Demonstrate an awareness of the expectations for social interactions in a variety of settings.

Culturally Relevant Connections

- Robert Klitzman, M.D., author of "Should You Worry About Being the Next Henrietta Lacks?" provides an insight into Ms. Lacks, an African-American woman from Baltimore, who died when she was 31 from cervical cancer in 1951. Her doctor removed some of her cancer cells and later researchers would use those cells to develop new drugs and vaccines. Yet, she never granted consent to use her cells. Her story is both a best-selling book and a movie.

Accommodations

Special Education/ 504/ At Risk Students Accommodations & Modifications:

- For the readings and Socratic circles, provide students with a graphic organizer to help with the gathering and analysis of text evidence.
- Break down readings into smaller chunks.
- Frequently check-in on student to gauge level of understanding.

ELL:

- Adjust the amount of reading that is required of English Language Learners.
- Consider allowing an ELL to pair up with a classmate who is willing to break concepts down for him or her. Have the pair sit next to each other so that content can be made more comprehensible as it is being delivered.
- Provide ELL's with sentence frames and starters for the Socratic Circle questions, as needed.

Enrichment

- Extended learning goals:
 - ⇒ Students, as a class, can create "Life Quotes Books." Each student finds a quote that they live by or

- relate to, creates or attaches an image to the quote, and then compile the entries into a single document, which can be shared, posted into Google Classroom, and/or printed out and displayed.
- ⇒ The reading selections and subsequent Socratic circles provide the students with the opportunity to speak as an “expert” in a student-centered discussion.

C. Use transitions (e.g. words, phrases, clauses) to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. D. Establish and maintain a style and tone appropriate to the audience and purpose (e.g. formal and objective for academic writing) while attending to the norms and conventions of the discipline in which they are writing. E. Provide a concluding paragraph or section that supports the argument presented (e.g., articulating implications or the significance of the topic).
- W 11-12.9- Draw evidence from literary or informational texts to support analysis, reflection, and research. A. Apply grades 11–12 Reading standards to literature (e.g., “Demonstrate knowledge of eighteenth-, nineteenth- and early-twentieth-century foundational works, including how two or more texts from the same period treat similar themes or topics”). B. Apply grades 11–12 Reading standards to literary nonfiction (e.g., “Delineate and evaluate the reasoning in seminal texts, including the application of constitutional principles and use of legal reasoning [e.g., in U.S. Supreme Court Case majority opinions and dissents] and the premises, purposes, and arguments in works of public advocacy [e.g., The Federalist, presidential addresses]”).

- L 11-12.3- Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening. A. Vary syntax for effect, apply an understanding of syntax to the study of complex texts.

Enduring Understandings:

- What is merciful is not always just; what is just is not always merciful

- Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the impact of specific word choices on meaning and tone, including words with multiple meanings or language that is particularly fresh, engaging, or beautiful. (e.g., Shakespeare as well as other authors.)

- Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings; analyze how an author uses and refines the meaning of a key term or terms over the course of a text (e.g., how Madison defines faction in Federalist No. 10).
- Analyze and evaluate the effectiveness of the structure an author uses in his or her exposition or argument, including whether the structure makes points clear, convincing, and engaging.

Social Studies Connection

Contemporary United States: Domestic Policies (6.1.12.HistoryCC.14.e)

- Evaluate the role of religion on cultural and social mores, public opinion, and political decisions.

Example: When reading No Exit students can evaluate the religious consequences of sin in the after-life, as well as the words and actions of the characters that reflect who they were in real life.

Technology (NJSLs-Career Readiness, Life Literacies, and Key Skills & Computer Science and Design Thinking)

Technology Literacy (9.4.12.TL.1)

- Assess digital tools based on features such as accessibility options, capacities, and utility for accomplishing a specified task.

Example: Teachers can review and provide students with various digital tools to produce their argumentative performance task. Teachers can encourage students to assess digital tools for accessibility, capacity and utility for drafting, revising and editing their essay to make an informed decision on what would best suit their needs.

21st Century Skills (NJSLC-Career Readiness, Life Literacies, and Key Skills)

Creativity and Innovation (9.4.12.CI.1)

- Demonstrate the ability to reflect, analyze, and use creative skills and ideas

Example: Students will use reflection, analysis and creative skills to craft an argumentative essay on an a particular aspect of Hamlet.

Social Emotional Learning

Self-Management

- Understand and practice strategies for managing one's own emotions, thoughts and behaviors.
- Recognize the skills needed to establish and achieve personal and educational goals.
- Identify and apply ways to persevere or overcome barriers through alternative methods to achieve one's goals.

Culturally Relevant Connections

- Jean-Paul Sartre's No Exit features a lesbian as one of the three main characters. Her interest and competition with the hetero male for the hetero female create tense situations as they discuss why they are all being punished and why with each other. Sartre was also noted for his open relationship with prominent feminist and fellow existentialist philosopher and writer Simone de Beauvoir. Together, Sartre and de Beauvoir challenged the cultural and social assumptions and expectations of their upbringings, which they considered bourgeois, in both lifestyle and thought.

Accommodations

Special Education/ 504/ At Risk Students
Accommodations & Modifications:

- Students will be given preferential seating in an effort to avoid distractions.
- Provide checklists for tasks.
- Provide written schedules with expectations and responsibilities.
- Encourage students to advocate for themselves during the activities.
- Allow students to work in groups with students who can assist them in the readings.

ELL:

- Consider allowing an ELL to pair up with a classmate who is willing to break concepts and readings down for him or her. Have the pair sit next to each other so that content can be made more comprehensible as it is being delivered.
- Provide ELL's with sentence frames and starters for different styles of writing so that they can reference them throughout the course and use as needed.

Enrichment

- Extended learning goals:
 - ⇒ Current event discussions that center around culturally sensitive or LGBTQ topics generally help students gain additional perspectives on topics
 - ⇒ Students will engage in an argumentative research simulation project with an emphasis on selecting a culturally relevant and/or LGBTQ topic.

Appendix D: Enrichment

What is the purpose of enrichment?

The purpose of enrichment is to provide extended learning opportunities and challenges to students who have already mastered, or can quickly master, the basic curriculum. Enrichment gives the student more time to study concepts with greater depth, breadth, and complexity.

- Enrichment also provides opportunities for students to pursue learning in their own areas of interest and strengths.
- Enrichment keeps advanced students engaged and supports their accelerated academic needs.
- Enrichment provides the most appropriate answer to the question, “What do you do when the student already knows it?”

Enrichment is ...	Enrichment is not...
<ul style="list-style-type: none">• Planned and purposeful• Different, or differentiated, work – not just more work• Responsive to students’ needs and situations• A promotion of high-level thinking skills and making connections within content• The ability to apply different or multiple strategies to the content• The ability to synthesize concepts and make real world and cross curricular connections• Elevated contextual complexity• Sometimes independent activities, sometimes direct instruction• Inquiry based or open-ended assignments and projects• Using supplementary materials in addition to the normal range of resources• Choices for students• Tiered/Multi-level activities with flexible groups (may change daily or weekly)	<ul style="list-style-type: none">• Just for gifted students (some gifted students may need intervention in some areas just as some other students may need frequent enrichment)• Worksheets that are more of the same (busywork)• Random assignments, games, or puzzles not connected to the content areas or areas of student interest• Extra homework• A package that is the same for everyone• Thinking skills taught in isolation• Unstructured free time

Appendix F: Climate Change Curriculum Statement

With the adoption of the 2020 New Jersey Student Learning Standards (NJSLS), New Jersey became the first state in the nation to include climate change across content areas. These standards are designed to prepare students to understand how and why climate change happens, the impact it has on our local and global communities and to act in informed and sustainable ways.

Districts are encouraged to utilize the NJSLS to develop interdisciplinary units focused on climate change that include authentic learning experiences, integrate a range of perspectives and are action oriented. While the 2016 NJSLS-English Language Arts (ELA) and Mathematics do not have specific climate change standards, districts may want to consider how they can design interdisciplinary climate change units that incorporate relevant ELA and mathematics standards.

Components of this are tagged throughout the curriculum as appropriate under the “Related Standards” section in each unit.
