Dear BCIT Families,

We are excited to announce the continuation of our partnership with Rowan College at Burlington County, offering a fantastic opportunity for your students to earn college credits while still in high school. The RCBC College Head Start Program, delivered through the College Accelerated Program (CAP), is facilitated by our BCIT certified teachers during regular school hours. Students will earn both high school credit and college credit for courses that they enroll in. We invite you to review the attached course listing to check if your child is currently enrolled in a college credit-bearing course.

To participate in the college credit program outlined in the attached course listing, students must also register with RCBC at https://rcbc.dualenroll.com/login and maintain a minimum "C" average in each course. Typically, a 3-credit college course costs over \$400. However, BCIT students will benefit from a reduced rate of only \$150 per 3-4 credit course, helping families save significantly on tuition costs!

For students who qualify for free and reduced lunch, the fees are even more affordable: \$100 per 3-4 credit course and \$200 per 5-8 credit course. The online application is currently open and must be completed by Thursday, February 29, 2024. If you have any questions or need assistance with the enrollment process, please don't hesitate to reach out to your child's school counselor.

By collaborating with our local community college, we aim to provide BCIT students with a valuable head start in their college journeys. If you have any inquiries, please do not hesitate to contact your child's counselor for guidance.

Here are some key points to consider when deciding to enroll in the RCBC CAP college credit program:

Table with 3 columns: RCBC CAP RATES, 3-4 CREDIT COURSE, 5-8 CREDIT COURSE. Rows include Regular Rate and Free/Reduced Lunch Qualifying Rate.

1. There are no additional fees for textbooks, lab materials, or activity fees.
2. Every college/university has guidelines for the acceptance of credit. It is strongly recommended to check with the college or university your child will be attending to see which course(s) and credits will be accepted.
3. CAP is not intended to replace the Advanced Placement program; however, students who choose not to test for AP credit may still earn RCBC CAP credit if applicable.
4. Students should sign up for CAP credit if they have a reasonable expectation of earning a "C" or better in the course, as RCBC will only grant credit for "C" grades or higher.
5. Students may only register for courses they are currently taking in the current school year.
6. Registration is final, and payment for CAP classes is non-refundable and must be made online through RCBC.
7. RCBC will not refund students who drop a RCBC CAP course, receive a grade lower than a "C" in a RCBC CAP course, or if a college does not accept CAP credit.

Thank you for your continued support, and we look forward to seeing your students excel in their college and career endeavors.

Sincerely,

Eder Joseph  
Assistant Superintendent
